

Sprint 4

Overview

Summary:

- Code work almost complete.
- Documentation work almost complete.
- Discussion based on features that are to be developed in the next version or are beyond scope for first release.
- All Test Cases discussed and will be developed in coming 2-3 days.

Date	02.09.2023
Team	A9
Participants	@Sonal Hadmode @Yusra Sayed @Anubhuti Singh @Suraj Shah

Retrospective

 Add your Start doing, Stop doing, and Keep doing items to the table below. We'll use these to talk about how we can improve our process going forward.

Start doing	Stop doing	Keep doing
Be open to learn new skills in order to develop/create complex features. Some features were kept beyond scope due to complexity of code.	Ignoring feedback. Honest communication is being practiced, however, comprehension for the same is lacking.	Team Collaboration. The members are open to taking up responsibilities of other team members. Team is now thorough with Agile Principles and embedding the same in the mode of work.
	Lack of Clear Prioritization. In case of multiple tasks, team members need to prioritize considering the estimated time taken and work accordingly.	

Action items

- ☐ Pick up the work pace and proceed towards presentation work.
